

ETIP *Bioenergy*

European Technology and Innovation Platform

Accelerating towards the 2030 targets

11th Stakeholder Plenary Meeting

27-28 September 2023

Premises of the European Commission,
21 Rue du Champ de Mars - Brussels

DAY 1 | WEDNESDAY 27 SEPTEMBER

 13:00

Introductory Session

We will provide the political view on bioenergy, talk about recent developments, discuss the latest EU regulation and present how ETIP Bioenergy is supporting our industry.

The Strategic Role of Bioenergy

Speaker Dina Bacovsky, IEA Bioenergy

The EU framework and perspectives

Speaker Maria Georgiadou, DG RTD

ETIP Bioenergy - support to a stronger bioenergy industry

Speaker Patrik Klintbom, Chair of ETIP Bioenergy / RISE - Research Institute of Sweden

Moderator Patrik Klintbom, Chair of ETIP Bioenergy

 14:15 **Coffee break**

Time for networking and one-to-one interaction.

 15:00

Industry Panel: Ready for Deployment

Leading companies will be invited to highlight what they do and assess what is needed to unlock the market potential of bioenergy and renewable fuels.

How to deploy BTGs technology for producing fast pyrolysis bio-oil from biomass residues

Speaker René Venendaal, BTG

How to deploy the Axens BioTfuel technology suite for renewable diesel and SAF production

Speaker Nicolas Simon, Axens

How to deploy Cortus technology of gasification of pyrolysis oil

Speaker Rolf Ljunggren, Cortus Energy

How to deploy Clariant's cellulosic ethanol technology

Speaker Nikolas Jacobsen, Clariant

How to deploy LanzaTech's technology for ethanol and ATJ production

Speaker Freya Burton, LanzaTech

Moderator Dina Bacovsky, Chair of ETIP Bioenergy WG2 (Conversion)

Technical break

Panel discussion on end-use aspects

Moderator Philippe Marchand, Chair of ETIP Bioenergy WG3 (End use)

Panellists Rolf Willkrans, Volvo; René Venendaal, BTG; Valentin Batteiger, Bauhaus Luftfahrt; Felipe Ferrari, GoodFuels

 17:30 **End of day**

DAY 2 | THURSDAY 28 SEPTEMBER

 9:00

R&I Panel

This session will deal with next generation technologies and R&I needs.

Strategic Research and Innovation Agenda (SRIA) 2023

Speaker Patrik Klintbom, ETIP-B2022-2025 Project

SempreBio

Speaker Eric Sunol, SempreBio Project

Biomethaverse

Speaker Gabriella Papa, Biomethaverse Project

Horizon Europe CIRCULAIR: Jet fuel from hydrothermal liquefaction of abundant agricultural residues

Speaker Valentin Batteiger, CIRCULAIR project

REFOLUTION Project - Unlocking the potential of biofuels

Speaker Duncan Akporiaye, REFOLUTION project

CARBIOW

Speaker Margarita de Gregorio, CARBIOW project

Moderator Patrik Klintbom, Chair of ETIP Bioenergy

 10:30 **Coffee break**

Time for networking and one-to-one interaction.

 11:15

Social acceptance of bioenergy

We will provide insights into citizens views and discuss them with selected stakeholders.

Opening

Speaker Kostantsa Rangelova, Senior Analyst, Energy and Climate Program, Center for the Study of Democracy (CSD)

Keynote

Speaker Radan Kanev, Member of European Parliament

Social acceptance of bioenergy - lessons learned from Austria, Bulgaria, Italy and Sweden

Speaker Konstantsa Rangelova, CSD

Good practices in improving social acceptance in new energy technologies and the future of RES in the context of EU's decarbonisation targets

Speakers Prof. Patricia Osseweijer, Leader of Section Biotechnology and Society, Delft University of Technology (TU Delft);
Enrico Bocci, Mech. Eng. Ph.D. Associate Professor on Energy Systems, DSI & CERITED Department, Marconi University;
Thomas Schleker, Policy Officer, DG RTD, European Commission

Discussion

Moderator Konstantsa Rangelova, CSD

 12:45 **Light Lunch**
